Favorite or Blocking Communities

https://b0fccfeff427a23c8f2303e989ef3fc1-301410275.us-east-1.elb.amazonaws.com/docs/heroes/uncategorized/favorite-or-blocking-communities/

Overview

Managing your community preferences helps personalize your experience and enhances the relevance of content and targeted advertising. Two key tools for this are **Favorite Communities** and **Blocking Communities**. These features give you control over which communities are prioritized and which are excluded.

Favorite Communities

By marking a community as a favorite, you'll see more content, updates, and opportunities related to them before others.

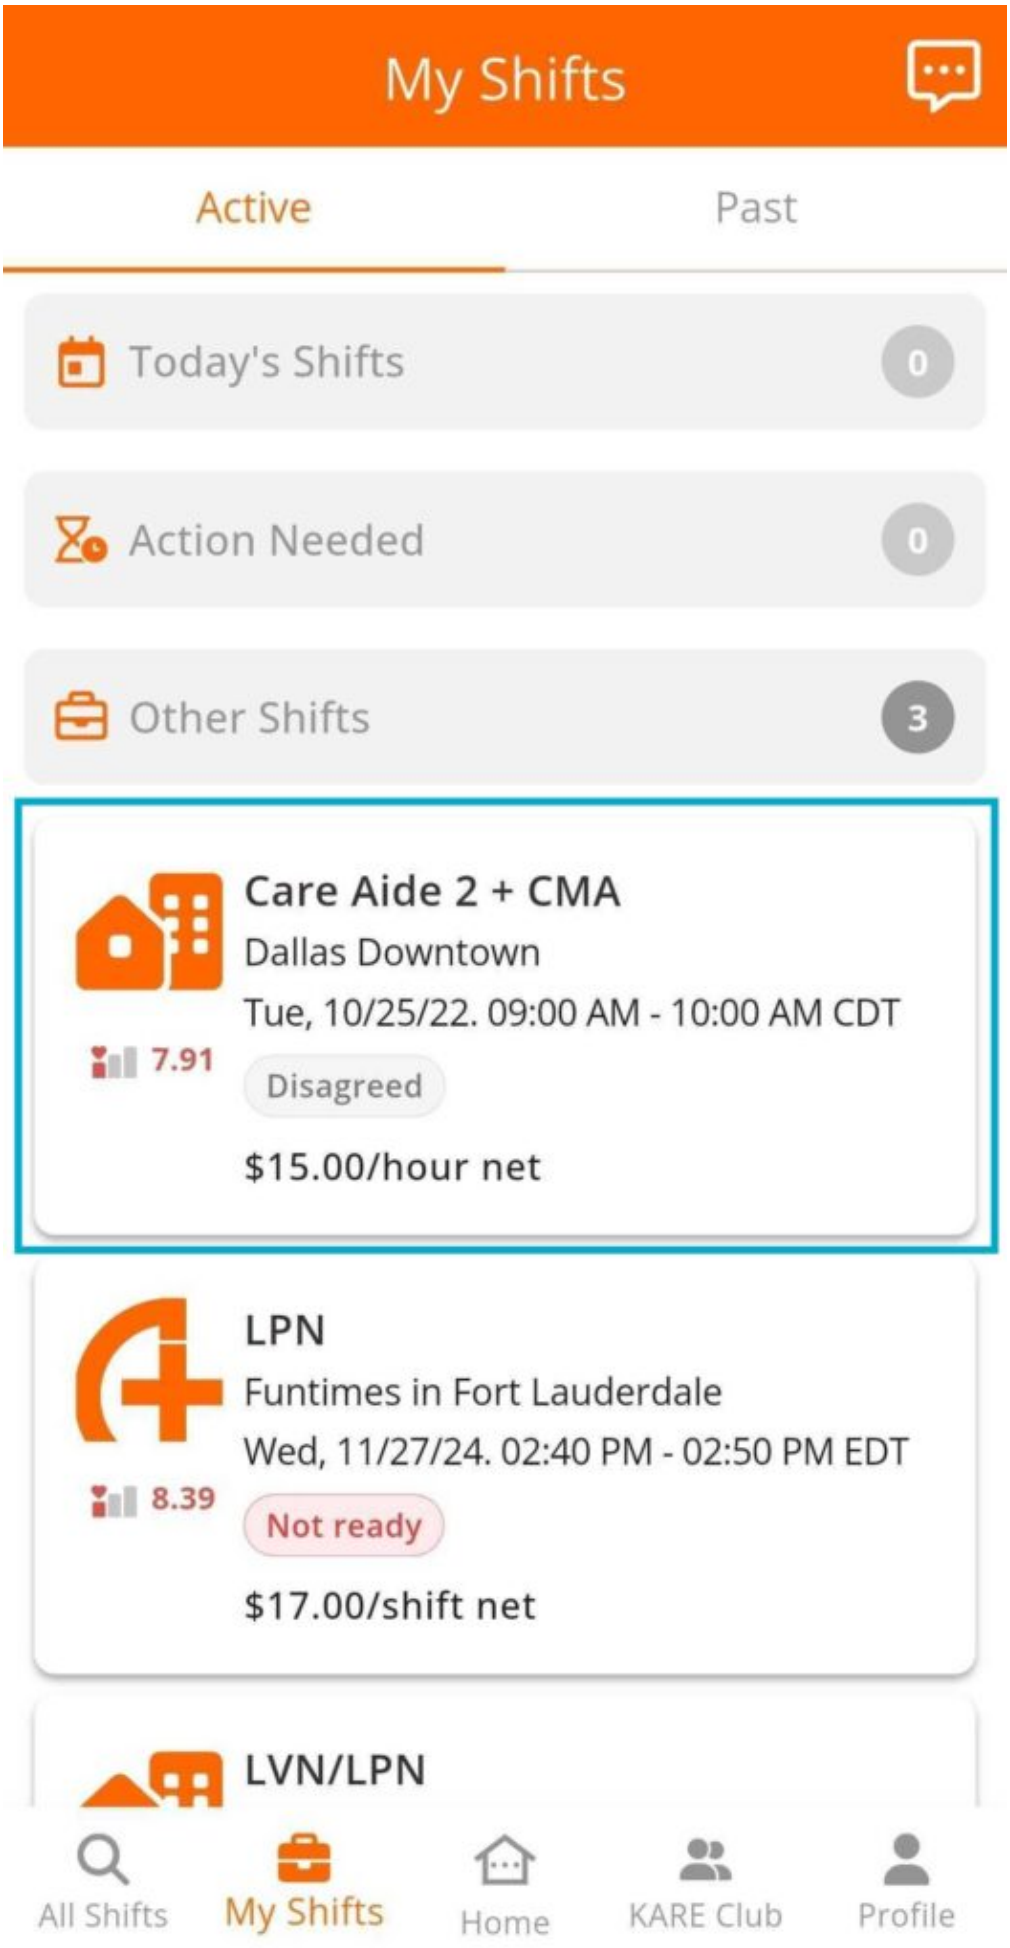

Blocking Communities

Blocking Communities allows you to exclude communities from your shift list and messaging. Whether they’re irrelevant, outdated, or simply not a fit, blocking helps keep your content clean and focused.

Favorite and Block Communities

Steps to favorite or block a community:

1. Open a shift detail.
